25 January 1982

MEMORANDUM FOR: Members, Imagery Planning Subcommittee

FROM :   
Executive Secretary, IPS

25X1

SUBJECT : Advanced Systems Working Group Mission  
and Functions Statement

Attached, for your information, is a copy of the current Advanced Systems Working Group's (ASWG) mission and functions statement. The attached version is consistent with, but amplifies the earlier version which you are familiar with (disseminated in October 1981 as the Advanced Requirements Task Force mission and functions). The principal differences between this statement and the earlier version are that this version incorporates a name change and encompasses the evaluation function.
